

Bakery Bites

Did you know that we have a wide variety of gluten free items; as well as specialty items? Throughout the last year, we have worked hard to expand our offerings. A few new items include gluten free white bread, cookies, cheesecakes, muffins. Following a keto lifestyle? We have numerous options there as well! We take extra precautions when preparing these items to avoid cross contaminations. It is a priority, as well as our mission, to prepare a wide variety of items for those with special dietary needs. Did you know a ketogenic diet is beneficial to diabetics?

Before you know it, Fall will be upon us! Cooler weather means caramel dipped apples, fresh pressed cider for the doughnuts and of course all things pumpkin. Our Fall bakery offerings included pumpkin butter cake, pumpkin snickerdoodles, black berry cobblers, apple cobblers and several more seasonal items.

Have you tried our NEW online bakery ordering? It's been a HUGE success and we have YOU to thank! Just a few things to note: Once you place an order, you'll receive an email generated by our website confirming your order. Once the bakery receives your order, we will email you confirming your order. Online ordering is easy and convenient!

Order online now at applebarn.net!
