Parents, here's a learning game to teach Stop Drop and Roll.

- Print these instructions and cut out the "flame".
- Have children sit in a circle. (This is similar to duck duck goose)
- Have one child walk around the circle and place the flame on one of the other children's back.
- That child moves to the center of the circle and stop drop and rolls.
- Then that child repeats the process.
- Make sure the children stop drop and roll correctly with hands on their face, legs together and rolling front and back slowly. (Rolling fast is the same and running)
- Enjoy learning
