

ACTION SERTOMA

SUMMER BULLETIN 2022

"A Club helping those in the Community"

MEMBER SPOTLIGHT

Connie Barrera
Publicity

I have been working Administration for 35 years. I retired my career downtown Chicago to raise my girls Julia, Jaime and Jiana. I re-entered the workforce as a Mortgage Banker for 11 years, then decided to become self-employed in Administration and Marketing in 2013, I incorporated in 2016. I have been a community volunteer for over 20 years that includes local schools, cheerleading program, softball, basketball, Relay for Life, OAK FEST, Oak Forest Park District Advisory Board and food pantries in the city and surrounding area. I joined Action Sertoma in 2016. I was inducted for Action Sertoma's Publicity a year later. I admin our social media accounts, our website, bulletin, and rosters. I am a Rocktoberfest Committee member, point person for our Annual Big Game Fundraiser, point person for the Queen of Hearts Fundraiser along w/our Treasurer and Secretary, I volunteer at our Annual Golf Outing. Helping the community and for those in need grounds me and is very gratifying. I am Proud to be a Sertoman!

The Dianne Masters Cup Golf Outing is in honor and memory of the late Dianne Masters, who founded the Crisis Center in 1979.

An espresso has less caffeine than a cup of coffee. A cup of drip brewed coffee has about 115 milligrams of caffeine, an espresso (and percolated coffee) about 80mg, while instant coffee has about 65mg of caffeine. Decaffeinated coffee is not totally caffeine free, containing about 3mg of caffeine. A 8oz can of Coca-Cola has about 23mg of caffeine, Pepsi Cola 25mg, Mountain Dew 36mg, and TAB 31mg. Tea has about 40mg of caffeine, while an ounce of chocolate contains about 20mg. The first Espresso machine was introduced in 1822 by the French, but it was the Italians who perfected and distributed it. Coffee is the world's most popular stimulant: 4 out of 5 Americans drink it, consuming more than 400 million cups a day. Consumption in Scandinavian countries is more than 12kg (26lb) per capita. With more than 25 million people employed in the industry, coffee is one of the largest trade industries in the world. Although coffee is believed to have been grown near the Red Sea since the 7th century, an Arabian author of the 15th century, Shehabeddin Ben, wrote that Ethiopians enjoyed coffee ever since anyone could remember. By the 16th centuries, coffee plants were found throughout the Yemen region of Arabia. After a Turkish ambassador introduced it to the court of Louis XIV in 1669, Europeans quickly acquired a taste for it. A few years later, the Dutch introduced coffee into Java. In 1714, the Frenchman Desclieux planted a single cutting of a coffee tree on the island of Martinique. Plantations soon grew from French Guiana to Brazil and Central America.

Today, coffee is planted in moist regions around the world. Instant coffee was invented in 1906 by Mr. G. Washington, an Englishman living in Guatemala.

NEWS

Announcing the newest chartered Sertoma club — Sertoma Connections of the Great Plains Club

Located in Baxter, Minnesota, the Sertoma Connections of the Great Plains Club is hard at work to grow their 15-member club with new recruits from Iowa, Nebraska, and North Dakota.

Their board of directors maintains a membership split of 51% deaf and hard of hearing and 49% hearing individuals. It is crucial to their club that the deaf and hard of hearing communities in their region know their needs and views are of primary importance to their club's purpose.

Sertoma Connections of the Great Plains Club is committed to Sertoma, Inc. and Camp UBU and intend to maintain the integrity of the Club and Camp UBU for years to come.
