

Paws on Cook Grooming Price Guide

Our grooming salon model has changed! The groomers in the salon here are now independent contractors with their own business numbers, business insurance, and payment methods! That said, you will find the independent groomers working alongside each other amicably, and with the support of our team too!

On this price guide you'll notice a range in price for each service. The range accounts for the variety of sizes and circumstances we face with each individual dog including their behaviour, condition of their coat, and the resources required to manage the dog through the grooming process.
