neal@afameproductions.com

I have 30 years of experience in media production and management. In many projects I either lead or acted in support to concept pitch, client negotiations and oversight of deliverables. As Producer, Line Producer and DGA Prod. Manager, I have been directly responsible for the evaluation, breaking down, scheduling, bidding then delivering the project both on time and at or under budget.

I have been directly responsible for negotiating contracts with multiple vendors, unions and agents each with specific and different needs.

I am both a team builder and team player that enjoys working in a dynamic, constantly changing environment that sponsors the need to think on your feet and rapid decision making. I also specialize in underwater and aerial photography.
