RV ANNUAL MAINTENANCE CHECKLIST

- ◇ Do a thorough walkaround of your RV to inspect for any damage
- ◇ Check all exterior seals and sealants
- ◇ Inspect propane tank/cylinders, valves, and lines
- ◇ Test all safety equipment
- ◇ Check fire extinguishers
- ◇ Service your brakes, wheel bearings, tire pressures, and rotate your tires
- ◇ Check smoke/carbon monoxide detectors and change if requires
- ◇ Make sure furnace and water heater vents and intakes are clean and clear
- ◇ Tune-up heating and cooling systems
- ◇ Update maintenance log

This is not an exhaustive list. Please contact us or your dealer if you need further assistance. There are a few more things that should only be performed by qualified RV technicians.
