RV MONTHLY MAINTENANCE CHECKLIST

- ◇ Inspect batteries and terminal connections. Top off batteries with distilled water (if applicable)
- ◇ Check generator oil level and connections. Run for 15 minutes under load
- ◇ Check and top off fluid levels
- ◇ Check the engine (if applicable)
- ◇ Check under your RV and anywhere else pests can enter to make they are clear
- ◇ Inspect and lubricate slideouts (use dry lube only)
- ◇ Check and repair all seals as needed
- ◇ Inspect and reseal exterior water entry points (window/door frames etc.)
- ◇ Check the tire pressures
- ◇ Vacuum and clean interior ac/furnace vents, ducts, and filters
- ◇ Check smoke/carbon monoxide detectors
- ◇ Pack or replenish your emergency toolbox/supplies

This is not an exhaustive list. Please contact us or your dealer if you need further assistance. There are a few more things that should only be performed by qualified RV technicians.
