

Outcome

"A Journey Thru Education has helped me succeed..."

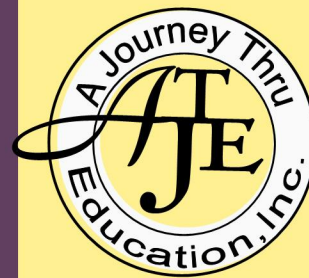

Our Founder and CEO, Sandee Ogilvie has 25 plus years of experience in the cultural exchange industry. She has worked in every aspect of the programs over the years, including the Au Pair division, F-1, J-1, Summer Travel and more. She has held many different positions during her career, which has given her the experience to understand what it takes to provide the best programs possible. Sandee holds a BA from UCLA. She began her career in Real Estate Finance. Her love for Cultural Exchange began in 1992 when we first hosted exchange students from Japan. She is very passionate about the industry and excited about sharing the benefits to anyone who will listen!

Find Out What You Are Missing!!

A J-1 Cultural Exchange Program for High School Exchange Students to Excel

Adventures

With Hosting

When Hosting You Will Make New Lifelong Friends & Family members.

School Year or Semester

Process

Student Applications

Once you apply for an opportunity to be a part of the Journey, you will be interviewed, and your application reviewed to find the best school and family to place you with. Your likes, dislikes and allergies, etc., will be considered when finding the best location for you to spend your year abroad. Once placed with a family and school, you will be introduced to your new host family and school, so once you arrive you will be a part of the family...You will have a local representative of A Journey Thru Education to greet you and assist you with your new life in America. They will meet with you every month, and always be available, to make sure everything is going great and help take care of High School Exchange Student issues before it's a problem

Developing Cultural Bonds with Education that will last a lifetime.

High Schools

Answering questions is no longer a problem

Overview

A Journey Thru Education is proud of the relationships we have formed with dozens of Public, Private and Charter schools all over the continental United States.

We work closely with the Districts, Principals, Admissions staff, and counselors, to make the process smooth and successful for the Students and the Schools, along with the Host Families that are a major factor to the success of the program.

We also have Local Coordinators that meet monthly with the host families and students. They file reports every month. They are available to the schools for contacting our organization on a local level, and are available for face to face meetings if necessary. Our administrative staff is always available for any questions or actions necessary to maintain a successful academic year for the student and the school.

Success

At the End

Many exchange students love to play sports. We have had students that have played Varsity Tennis, Basketball, Soccer, Football, Wrestling, Water polo, and many of the Track and Gymnastic specialties as well. They have assisted for some of the sports where they couldn't compete, as well as doing stats and other ways of being involved with the school. Art is also a big interest of many of the exchange students.

Cultural bonds are built among teens, staff and community.
