

Water Quality Committee

“Preserve the high quality of water in Little Traverse Lake for all its uses, now and in the future.”

2023: Completed Water Quality Strategic Plan

(available on www.littletraverselake.org > Our Work > Water Quality > Strategic Plan)

2024 Focus: Implement Strategic Plan

Water testing program

- Signed annual contract with John Ransom to conduct tests
- Investigated cause of high phosphorus reading in late 2023 (most likely a rain event, not a lab error)
- Updated online database

Blog posts –

- January – Interview with outgoing Water Quality chair
- March – What to know about golden-brown algae
- May – Help build a more natural shoreline
- Three more planned by year-end
