BULK TANK INSTALLATION CHECKLIST

Before we bring out your new propane tank, please ensure that the following checklist is completed so that we can provide a smooth and problem free propane tank set.

Paperwork

- ☐ Feeg's Propane Account Application Form
- ☐ Gas Permit – Copy Submitted to Feeg's Propane covering the gas line installation

Tank Location

- ☐ Determine and Prepare Tank Location
 - ☐ Level, firm base (Acceptable: dirt, grass; Recommended: gravel, pavement, concrete pad)
 - ☐ 10 feet away from any building, source of ignition, property line, and driveway.
 - ☐ Access within 15 feet of location for tank placement
 - ☐ Access within 50 feet of the tank from the driveway for future propane deliveries.
(Please contact our office if you think the tank might need to be further than 50 feet from the driveway.)
 - ☐ Location marked if you will not be there on the day of the tank delivery
- ☐ If it isn't an inconvenience, pictures of property and tank location sent in to Feeg's Propane
- ☐ Driveway and Tank Location cleared of snow if it is a winter tank set

General

- ☐ Any additional parts have been requested if needed (ie. Second Stage Regulator, Copper Line, Fittings, Hoses, Monitor)
