Jerry Fitzpatrick, Founder
Fitzpatrick Design Construction Services
P.O. Box 864784
Plano, TX 75086

To whom it may concern:

I am writing this letter as testimony to the value that Jerry and his team at FDSCS will bring to any project. Jerry and his team were retained in 2021 to help us with design and construction management services on a very complicated set of upgrades and expansion to one of our Fire Stations. They have walked beside us from the beginning and quickly established themselves as detail oriented and present team members.

FDSCS has now been instrumental in guiding and managing projects for both the Forney Fire Department and the City of Forney. I look forward to our continued partnership with them on additional projects as they come up. Based on this experience with FDSCS as part of our team, I am happy to recommend Jerry/FDSCS to anyone seeking competent, professional, project design and construction management services.

Respectfully,

Derek Briggs
Fire Chief
