Our Core Offerings:

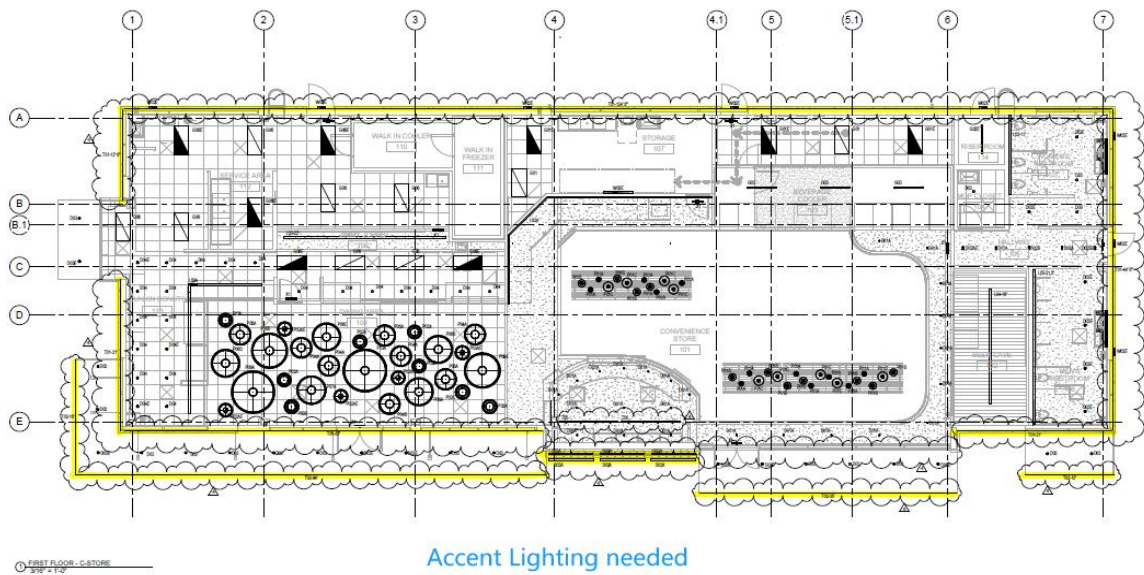

## 1. Lighting Solutions for Wash Tunnels

## 2. Lighting for Vacuum Bays

### 3. Accent Lighting for Building Exteriors

### 4. Custom Signage & Channel Letters

## 5. LED Display Screens

### Outdoor 43"/55" Digital Menu Boards

The device features a built-in refrigeration air conditioning system, capable of withstanding outdoor environments, ensuring that the display does not turn black and allowing the entire machine to function properly. It is equipped with an intelligent temperature control module that automatically adjusts the internal temperature of the machine, extending the life of the screen and promoting energy efficiency and environmental protection. The machine is designed with outdoor protection, achieving a protection rating of IP65.

### Indoor 43" touch Menu Boards

### APPLICATION
