INTERIOR DESIGN & STAGING

VIRTUAL ROOM REFRESH

# ABOUT US

RoomStyled Design Studio is an interior styling and virtual home staging firm based in beautiful, rainy Vancouver, BC. We specialize in interior styling services for clients who do not require a full service experience or would prefer to be involved in the design process. Our services were created with these clients in mind to provide them with a high quality design that they can confidently implement themselves within their own timelines and budget.

# VIRTUAL ROOM REFRESH

- The *Virtual Room Refresh* focuses on furniture, paint/wallpaper and decor elements to create a cohesive space that reflects your individual taste and lifestyle needs.
- Together, we will create a personalized design plan for your room that you can use to confidently implement on your own.
- You will have full control over how the design plan is executed. For example, some clients may wish to implement in stages (i.e. due to timing and/or budget constraints).

# PROCESS OVERVIEW

## 01 - Getting to Know You

Before starting your project we need to better understand your space, tastes, budget and lifestyle.

This phase includes:

- A detailed design questionnaire;
- Collection of inspiration photos to better understand your style preferences;
- A simple measuring and photography guide so that we can better visualize the space.

## 02 - Welcome Call

Together, we will thoroughly review the information collected in Phase 1 over a 30-minute video call (best done over a laptop or tablet).

## 03 - Design Plan

We will develop a detailed design plan which will include:

- Comprehensive digital 2D Concept Board or 3D Room Design Presentation with recommended furniture, paint/wallpaper and accessories.
- Direct links to all products in the Design Plan.
- Our designer tips and tricks for putting your space together.
- Delivered via email within 2-3 weeks of our welcome video call.

## 04 - Design Support

- 30 minute follow-up call to answer any questions.
- Reselection of up to 2 items in the design.

## 05 - Access to Trade Discounts

Access to trade discounts are provided wherever these are offered to RoomStyled Design Studio and are in the range of 10%-20% depending on the supplier. Most clients find that design fees are more than recovered via the substantial trade discounts secured for their projects.
