

Never pay full price for your photobook.

Photobook publishers offer many discounts. LifeinPages checks their specials regularly, to offer you the best prices. For volume and bulk orders, we contact the publishers directly to ask for their best rate.

Please know that although book publishers have standard rates, and although their sale and discount rates usually save you a minimum of 35%, those rates fluctuate. The rates shown here are based on preliminary quotes LifeinPages received from the book publisher. Rates subject to change.

NOTE: Publisher prices do not include the LifeinPages layout/design fees or photography services.
