Planet Smile for Kids in partnership with SmileTrain will be at the National Hospital for Odonto-Stomatology in Ho Chi Minh City, Vietnam to provide education for parents and training for dental and medical professionals caring for children with cleft lip & palate (CLP). With your support, we will share and spread knowledge so the treatment of CLP can proliferate beyond Ho Chi Minh City.

Your support will greatly improve the outcome for children with CLP and help prevent:

- Abortions & abandonment
- Bullying & stigmatization
- Delayed physical & mental developments
- Hearing loss & speech impediment
- Gaps in continuum of care from birth to young adulthood
- Loss of quality of life for both the child and their families

Thank you for making a difference that will last a lifetime.

THANK

Mr. Dan On with Linh Huynh of Planet Smile

Mr. Dan On, founder of Dan-D-Foods (a Canadian business success story), has generously donated \$100,000 US towards the renovation of the Comprehensive Cleft Care Center at the National Hospital of Odonto-Stomatology (NHOS) in Ho Chi Minh City, Vietnam.

Mr. On's vision to better serve the needs of patients and medical professionals was achieved in consultation with NHOS stakeholders, Dr. Andrew Tsang, PSK specialists and designers.

The Center at NHOS provides comprehensive CLP treatments at no charge and hosts training sessions in collaboration with NHOS partners like Planet Smile for Kids. The renovated space will allow staff to increase:

- Workflow efficiency
- Patient comfort and privacy
- Advance treatments
- Best-practice strategies
- Training capacity
- Quality of educational exchanges between medical/dental professionals abroad & its Vietnamese counterparts

Planet Smile for Kids is grateful for this generous contribution that will enhance and improve training in a facility that is patient-centred.

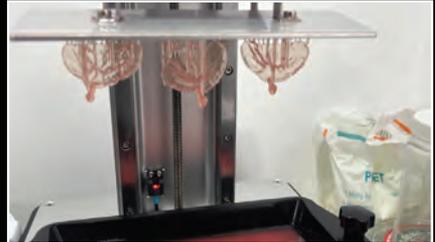

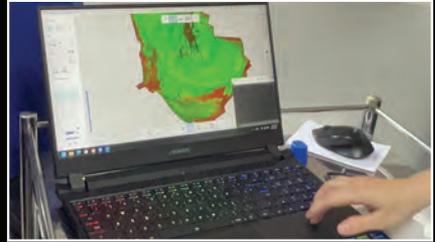

YOU!!!

Dr. Nellie Trinh and Dr. Michael Chan of Apex Dental Clinic in Burnaby, generously donated an intraoral scanner to the Center at NHOS. This generous gift will be an integral part of the cleft lip & palate treatment plan.

With a scanner, everyone involved in the process can expect:

- Improved comfort and safety
- Reduced stress & anxiety
- Increased treatment accuracy and efficiency
- Babies to feed with a regular nipple

Dr. Andrew Tsang generously donated the resources of Westcoast Dental Clinic in Ho Chi Minh City to turn digital scans into NAM appliances.

Top left clockwise:

- Dr. Trinh training NHOS team
- Scan is sent to computer for 3D rendering of NAM appliance
- Dr. Nicolas Salesse created NAM appliance using 3D printer
- 1st patient feeding with a regular nipple using 3D-printed NAM

With a digital workflow, Planet Smile for Kids can explore options of satellite offices in Vietnam so treatment is closer to where it's needed.

Scan QR code to preview auction lots. Share link with family & friends who may be interested and you can bid by proxy. Silent auction will close at 9:30 p.m. on October 13th. Winning bid will be announced shortly thereafter. Payment can be made by cash or credit card.
