HOW AI DETECTS THREATS 10X FASTER

LIGHTNING-FAST ANALYSIS
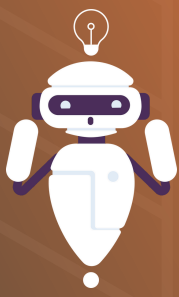

AI scans millions of data points **every second.**

- Scans millions of data points in seconds
- Instantly spots suspicious patterns

24/7 REAL-TIME PROTECTION

AI **never** sleeps

- Monitors threats nonstop
- Flags attacks the moment they appear

## PREDICTIVE THREAT DETECTION

AI learns from **every** attack

- Uses machine learning to spot new threats
- Anticipates and stops new threats

AUTOMATED INCIDENT RESPONSE

AI acts the **moment** a threat is detected

- Quarantines threats instantly
- Blocks malicious activity on the spot

FEWER FALSE ALARMS

AI knows the **difference** between real threats and noise

- Cuts false positives by up to 80%
- Lets teams focus on real threats
