

As threats evolve, so must an organization's ability to implement a prioritized, flexible and cost-effective approach to manage risk and meet the variety of standards and controls that impact their operations. A CIS Assessment is a rapid assessment based on the Center of Internet Security's "Top 20" controls every organization should be doing to mitigate cyber attacks. The Inceptus CIS Assessment prepares organizations by checking competencies in these top twenty controls and providing recommendations for remediation to secure their organizations.

- ✓ Covers people, processes and technologies
- ✓ Prioritized measurement of gaps
- ✓ Expert Assistance
- ✓ Comprehensive Reporting

Quantify Risk and Secure Your Organization

Inceptus' Security Team assesses your environment's defenses against the most common and damaging attacks that affect most organizations. This help to identify priorities and fill gaps which allows for implementation of the most effective controls.

ESTABLISH PRIORITIES

Prioritize baseline information security measures and controls

ACT CONFIDENTLY
