

Long Live Rock n Roll

Rockology is an anthology of rock n roll music that spans from blues, 50s, 60s, 70s, 80s and 90s. The band covers classic favorites from Elvis to Led Zeppelin to AC/DC to Santana to Janis Joplin to the Doobie Brothers and much more.

The show focuses its energy on classic cover tunes that everybody loves and remembers while being rocked out to soulful vocals and burning guitar solos. Whether fans dig the kicking sound of the drums, the banging bass or the screaming guitar...well like the Rolling Stones sang, "It's only rock n roll but I like it".
