

MBBL

Tournament Scoring and Annual Championship

Introduction

MBBL conducts tournament play over each of two eight-week Seasons ("Spring" and "Fall") during the year. Each Season will have its first-, second-, and third-place teams honored. When both Seasons have concluded, an Annual Championship tournament will be conducted among the first- and second-place finishers in the Spring and Fall Seasons.

Season scoring

During each Season, Match results will be recorded and totaled. The participating teams will be ranked by their number of Matches won. Should there be a tie among teams, total Games won will be used as the first tiebreaker, and Game score differentials will be used as the second tiebreaker. Should there still be a tie, duplicate awards will be made. Spring and Fall Season awards will be made to the teams finishing first, second, and third in each Season.

Annual Championship

When Season play is completed each year, an Annual Championship will be conducted. The first- and second-place teams from both Seasons will compete in a single elimination tournament. The two first-place teams will play one semi-final Match against each other, and the two second-place teams will do likewise. The winners of those two semi-final Matches will then play a Championship Match for the title of "MBBL Annual Champion", and appropriate awards will be made to each team participating.
