\* 14 Matches must be played to qualify for the playoffs.

The top 7 teams qualify for the playoffs.

Place is based on the best match winning percentage.

If there is a tie the best game winning percentage breaks the tie.

If there is still a tie the team with the most points scored breaks the tie.

If still tied the end of season place is determined by a coin flip.

A team must play 14 matches to qualify for the playoffs.
