AS THE PLANETS TURN™

Air Moon Signs – Gemini, Libra, Aquarius

Thinking + Research: This period is excellent for abstract thinking, rather than the study of deeper more complex thoughts and problems. This moon can be very 'heady' with thoughts taking up most of our time. Concentration on deeper subjects or our emotions, is more difficult. 'Squirrel'

This Moon is good for:

- Communication
- Brainstorming
- Researching
- Holding classes and workshops
- Multitasking
- Processing information from multiple sources
- Creating dialogue and understanding the perspectives of others
- Promoting yourself - interviews, podcasts, PR, social media etc.
- Socializing
- Networking
- Communicating the value and benefits of your offers that were worked on during the earth moon where you have built up the foundation of your offers/marketing.

What to be careful of:

Not a good time to commit to anything (especially contracts) Shorter attention span. Gossip, and low impulse control, shallowness, nervousness and anxiety can run higher as we are more in our heads. Hold off on having too much caffeine during this time.

AS THE PLANETS TURN™

Water Moon Signs – Cancer, Scorpio, Pisces

Emotional / Intuitive: Intuition and dreams may be strong at this time. Focusing on our emotions and our inner world will help to uncover any mindset blocks that we carry with us in our business and personal lives. Therefore, wounds and triggers may pop up more intensely at this moon. Creating healthy boundaries very much falls under water moons and helps with healing. The work that is done under a water moon is deep, and long lasting, on an inner level rather than physical.

This Moon is good for:

Self-care

Meditation

Journaling

Vision boarding

Reading

Mind-mapping

Praying

Using your intuition

Therapy

Self Care - baths, long walks, nurturing yourself + others, yoga, massage

Cooking (and eating comfort food)

Using or smelling of essential oils

Clearing your space

Re-evaluating your relationships + roles

What to be careful of: Crankiness, neediness, over or under nourishing ourselves, co-dependency, not honouring the boundaries of others, jealousy or possessiveness, obsessiveness (especially over work), isolation, sarcasm/snappy comebacks, emotional manipulation - guilt tripping, daydreaming, and self-pity.

AS THE PLANETS TURN™

Void of Course (VOC)

A VOC moon occurs when the moon is moving from one zodiac sign to another. The moon takes approx. two half days to go through each sign.

It is like being in the room of say Aries, then stepping out into the hallway, where not much happens, this is the void, and then after a few minutes, hours or even days, you step into the next room of say Taurus.

This space and time spent in the hallway is the Void, where there is nothing to hang onto or grasp.

These periods can last anywhere from a few minutes to hours or even days.

The moon will reflect whatever it is passing through and when it isn't reflecting anything, it can feel like a quiet period. This would be in the hallway.

The Void of Course Moon is an opportunity to tune into what you want and go inward.

Initiating, anything, during a VOC moon does not tend to work out the way you would like, such as - launches, projects, presentations, webinars, job interviews, first dates, announcements, social media posts etc.

It will lack the momentum needed to propel them forward and will require significant adjustment and changes to make it successful.

What to do During a VOC

Instead of starting anything new:

- Finish Up Old Projects
- Edit
- Review
- Refine Your Writing, Packages, Offers
- Take A Trip
- Make To-Do Lists,
- Sleep
- Declutter
