

A GARDENER'S WORLD

If you're interested in learning more about gardening and sharing your excitement in friendship with fellow gardeners, why not check out The Inland Empire Gardeners (TIEG)--the nature loving folks that have proudly brought you the Garden Expo for the last 20 years? TIEG meets the 1st Thursday of the month at 6:30pm at CenterPlace, 2426 N Discovery Pl. Featuring: Award-winning newsletter, door prizes, special events, garden tours, refreshments, book library, guest speakers, and lots more fun, laughter, and merriment! If you would like to contact TIEG, call 509-535-8434 or email gardenexpo@comcast.net.

GARDEN EXPO SEMINARS

Spokane Community College Lair Auditorium

FREE

10am - "Deer Resistant Landscapes" - Sue Bockelman, The Plant Pro - The ornamental plants and shrubs in your garden should be a feast for the eyes, not a banquet for the local deer population. Although it's impossible to make a backyard completely deer-proof, you can fill it with plants deer hate. We'll talk about what plants deer tend to leave alone (sorry, there's no such thing as deer proof), and you'll receive a list. We'll also discuss landscaping practices that will help deter deer from entering your yard and eating or damaging your plants. Using the right strategies will help to keep deer munching elsewhere.

11:30am - "Zen Lessons from the Garden" - Barbara Safranek, Landscape Design - The Japanese aesthetic, Wabi-Sabi, is a fresh and uncommon perspective on beauty to most of us in the West. Zen principles of Wabi-Sabi enter on the acceptance of transience. What could be a more appropriate concept to ponder with respect to the ever-changing nature of landscape? Join Barb in opening your mind to Wabi-Sabi by exploring and contemplating the lessons of seven Zen principles for creating and appreciating a deeper beauty in our gardens. When we approach our work in the garden, or in our life, through the practice of contemplative design, we can elevate the whole; we can unite the spiritual with the ordinary; we can join heaven and earth.

1pm - "Down the Garden Paths of Scotland" - Linda Beutler, Speaker, Author - Just as the Scots have their own legal, educational and religious institutions, they have a distinctly Scottish way of gardening, too. They are fearless. Confronting wet winters, cool summers, acid soils, they smile at the horticultural practices of their English compatriots and go about gardening in their own, ruggedly individual manner. Join Linda and discover for yourself the many qualities that make Scottish gardens so unique. We'll visit renowned gardens and get to see what's happening in the contemporary garden scene. In addition to gardens, we'll visit several sites of historic and cultural interest, and along the way enjoy Scotland's extraordinary natural beauty.

2:30pm - "Beauty in the USA" - Phyllis Stephens, Local Garden Speaker - Listen up, Americans: Let's take a second to appreciate all the astounding landscapes Mother Nature has gifted us. From Alaska and Arizona to Maine and New York, here are the most jaw-dropping places in the USA. The beauty of our states and what they have to offer--natural attractions, man-made wonders, and unique local points of interest. It's impossible to name the most beautiful state in the US, as each of them has its fair share of natural beauty added to the man-made constructions, its own particular character, its own incontestable magic. Nevertheless, the USA, offers unforgettable land and cityscapes that range from deserts to lush forests, sparkling skyscrapers to cobblestoned streets. Flowers and trees--you'll find beauty everywhere.

GARDEN EXPO DEMONSTRATIONS

Spokane Community College Lair Conference Room

FREE

10am - "**How to Make Fire Cider**" - **Jessica Spurr**, Earthly Apothecary - This tonic was published in a book by Rosemary Gladstar in the 1970's. It has since frequented the shelf of many herbalists, and has recently been the cause of a legal case regarding who owns the rights to its name, a large corporation or all herbalists? Horseradish root, ginger root, onion, garlic and hot peppers are the key ingredients. Come learn to make this fiery tonic and keep wet, cold, and damp symptoms at bay.

11am - "**Let's Get Dirty--How to Make Soil**" - **Thom Foote**, Footehills Farm - Whether you are growing flowers, herbs, vegetables, a lawn, or a shrub border, healthy soil is an absolute must. Your plants will be less prone to pest and disease issues, they'll grow better, and they'll look better. With a bit of know-how, some work, and some patience, you can have healthy soil, no matter what kind of soil you are starting with. Sure fire methods to "grow" your soil in any location. Step by step methods including materials needed. With these tips, you will see a vast improvement in the quality of your soil, and, therefore, in the health and beauty of your plants.

1pm - "**Sumi-e Asian-style Watermedia**" - **Keiko Von Holt**, International Artist - Sumi-e is a style of Japanese black ink painting with roots in Chinese calligraphy traditions that focuses on creating detailed, nature-inspired compositions. Join Artist Keiko Von Holt for a sumi-e demonstration, you will be guided through the process and will explore the technique on paper or on magic cloth, an impermanent and meditative method of practicing the art form. Learn to paint flowers, insects, birds, and animals with simple watercolor strokes in a classic Asian style.

2pm - "**Growing Flowers for Drying**" - **Beth Mort**, Snapdragon Flower Farm - Gardeners in colder regions certainly miss their flower gardens in the winter months, but if you plan ahead, you can grow flowers and plants to preserve and bring indoors for the snowy season. Drying flowers is simple, and arrangements can last for years. Learn a variety of flowers you can grow easily that are exceptional for drying and see how to craft simple beautiful wreaths. Summer never fades when you air-dry garden blooms to preserve them for year-round display.

Note - Programs, times, exhibitors listed subject to change without notice. Limited seating.

The Garden Expo would like to thank JU Contracting for their invaluable assistance in the marking of the Expo booth spaces this year--509-484-9144--
