

A GARDENER'S JOURNEY

If you're interested in learning more about gardening and sharing your excitement in friendship with fellow gardeners, why not check out The Inland Empire Gardeners (TIEG)--the nature loving folks that have proudly brought you the Garden Expo for the last 21 years? TIEG meets the 1st Thursday of the month at 4pm at Shadle Library, 2111 W Wellesley Ave. Featuring: Award-winning newsletter, door prizes, special events, garden tours, email newsflash messages, guest speakers, and lots more fun, laughter, and merriment! If you would like to contact

TIEG, call 509-535-8434 or email gardenexpo@comcast.net. www.tieg.org

Endless Song Water Gardens - Pond Plants

GARDEN EXPO SEMINARS

Spokane Community College Lair Auditorium

FREE

***10am - Juan Juan Moses** - Spokane Public Library's Community Educator - *"The Story of Chickens"* - Once relegated mostly to farms and breeding facilities, chickens are now commonplace as a dual purpose bird for backyard egg producers and pets. Sure, they're not the most glamorous birds, but they have quite an interesting story, and that story begins in the dinosaur age. Curious? Join Juan Juan Moses, Community Educator for Spokane Public Library, who will be talking about everything about chickens, from its origin, to its historical migration and transformation, to Queen Victoria's influence, to Spokane's chicken ordinance, to selecting backyard breeds.

***11:30am - Sue Bockelman** - The Plant Pro - *"Gardening with Wildlife"* - How do you have a beautiful landscape and luscious garden that is both attractive to some wildlife (Birds & Pollinators) while keeping other wildlife (deer, voles, etc.) at bay? We'll discuss how to attract beneficial wildlife, including lists of bird friendly plants. And we'll discuss how to keep others out, including lists of deer and rabbit resistant plants. Sue will suggest ideas of what to do to make your own gardens a haven for wildlife.

***1pm - Robin O'Quinn** - EWU Professor of Biology - *"Gardening with Native Plants"* - This talk will introduce you to a suite of native plants that work well in the garden and introduce some easy DIY propagation techniques to try. Native plants are beautiful in the garden and are advantageous in requiring no fertilizers and fewer pesticides than lawns. They also typically use less water than lawns, help prevent erosion, and provide shelter and food for regional wildlife. Gardening with natives promotes biodiversity and stewardship of our natural heritage.

***2:30pm - Ciscoe Morris** - Gardening Expert, Author, TV & Radio Personality - *"Q&A session--Stump the Chump"* - Coming to the Garden Expo for the first time is Pacific Northwest's own Ciscoe Morris! His lively enthusiasm for gardening is infectious and he won't be stumped! See if you can stump the unstampable guru Ciscoe Morris with your toughest garden questions. At the same time, you may get a chance to try to win a prize if you can solve one of Ciscoe's tough garden stumper questions. Warning: if you do stump the guru, be prepared to duck. He's been known to throw brussels sprouts at audience members who stump him!

"Advice from a garden. Cultivate lasting friendships. Sow seeds of kindness. Listen to the sage advice. Don't let the little things bug you. Be outstanding in your field. Take thyme for yourself. No vining!" - <https://myadviceforlife.com>

GARDEN EXPO DEMONSTRATIONS

Spokane Community College Lair Conference Room

FREE

***10am - Samona Cranley** - Retired Florist and Japanese Floral Culture enthusiast - "**Kokedama Art**" - Kokedama, an Ancient Japanese Garden Art translated from Japanese to English = Moss Ball. These sculptures look magical hanging from string and are a lovely way to bring a bit of greenery indoors. Living plants bring life and energy to any space and Kokedama is intended to inspire peace and tranquility. Although Kokedama are beautifully intriguing and somewhat unfamiliar, they're quite simple to make.

***11am - Megan Monroe** - Owner of Crafted - "**Mini Macramé Hanging Succulent**" - Macramé plant hangers are becoming popular, they're a stylish way to create hanging planters out of ordinary pots. Learn 5 basic knots and create a hanging succulent mini macramé from start to finish. Hanging planters that are all really cheap and easy to make. You can add these to the porch or hang them all over your home's interior to add color and style to any room.

***1pm - Sabrina Gonder** - Get Healthy with Sabrina - "**Anti-Inflammatory Smoothie Demonstration**" - Bursting with fruit, portable and easy to drink, smoothies can be a healthy on-the-go breakfast or snack. But a lot of fast-food and restaurant smoothies are way too high in calories and sugar to be good for you. Healthy smoothies are a great way to increase your antioxidant levels and increase your energy. They make a great snack and can be a meal replacement. Done correctly, smoothies are nutrition powerhouses that can pump you full of healthy fruits and veggies.

***2pm - Ricky Webster** - Cooking with Chef Ricky - "**Hyper Local Cuisine**" - You've heard of the local food movement--in which restaurants source some of their food from nearby farms in an effort to provide the best quality ingredients while supporting sustainability and the local economy. However, in recent years, many restaurants have taken the local food idea one step further, and are embracing hyper-local food--sourcing their food locally. Join Award Chef and Baker Ricky Webster for a discussion around hyperlocal sourcing. Enhance your cooking and incorporate locally sustainable flavors into a variety of dishes and cuisines.

Note - Programs, times, exhibitors listed subject to change without notice. Limited seating.

The Garden Expo would like to thank JU Contracting for their invaluable assistance in the marking of the Expo booth spaces this year--509-484-9144--www.jucontracting.com--they are your roofing solution
