Price and Royalties

Royalty options are usually set as 35% or 70%. These are explained in further detail below. Minimum and maximum allowed prices for your book are based on the size of the book (measured in megabytes). Amazon has minimum prices of \$0.99 (USD) for books under 3 megabytes, \$1.99 (USD) for books over 3 megabytes but under 10 megabytes and \$2.99 (USD) for books over 10 megabytes. The maximum list price for any book is \$200 (USD) for books with the 35% royalty option and \$9.99 (USD) for books with the 70% royalty option. Print-on-demand royalties with Amazon are 60%.

Copyright

Are you the copyright holder of your book? This will determine the percentage of royalty you are eligible to receive. Books consisting mainly of material in the public domain are not eligible for the higher royalty percentage

Royalty Option 35%

70%

If you hold copyright, the royalty option is usually 70% (less distribution costs and any sales tax). If your book consists of material in the public domain, the percentage is 35% (less distribution costs and any sales tax). If your book is sold to a country outside Available Sales Territories, the 35% royalty rate will apply. Distribution costs vary depending on where the book is bought but Amazon generally calculates them at \$0.15 (USD or AUD) per megabyte for the USA and Australia. The maximum price of books with the 70% royalty option is \$9.99 (USD) so if your book is very large or you wish to charge more than \$9.99 (USD), we advise selecting the 35% royalty option. Books priced under \$2.99 (USD) are only eliqible for the 35% royalty option

Book Price

How much will you charge for your book? Any book priced under \$2.99 (USD) will only be eligible for 35% royalty. Larger books (over 10 megabytes) must start at \$2.99 (USD). The maximum a book can be priced to earn the 70% royalty is \$9.99 (USD). If your book is very large, we recommend you choose the 35% royalty option as this will let you charge up to \$200 (USD) for your book. Only books under 3 megabytes in size can be priced at \$0.99 (USD). No book can be priced under \$0.99 (USD). Digital books must be priced at 20% less than the paperback format of your book

Online Platforms

Platform 1

Where would you like your book to be uploaded? We suggest Amazon as your first choice

Platform 2

We will also upload your book to a second platform, such as Lulu. Please indicate the platform you would prefer.
