

## Welcome to the Museum Of Mistresses

### Museum Of Mistresses Payment Details

Museum Of Mistresses offers multiple payout options so you can receive your earnings quickly and securely. This guide explains how earnings are added to your account, the minimum requirements for withdrawal, and your payment options, and how to calculate your earnings.

#### How Earnings Work

After each paid call, chat, or video call your earnings are added to your Museum Of Mistresses account balance. You must make sure to update Museum Of Mistresses on what payment receiving method you plan on using.

#### Minimum Requirements

Minimum balance to receive your weekly payout is: \$10

#### Payment Options

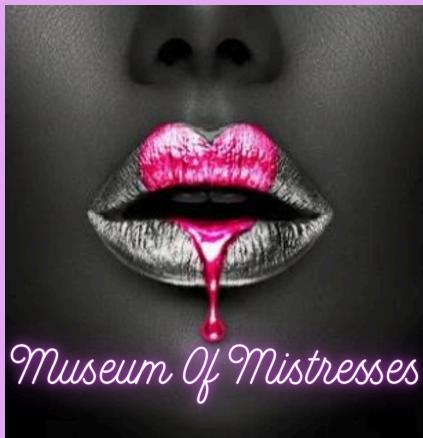

Museum Of Mistresses offers two ways to get paid:

Regular Pay (Weekly) which is a free payment option with no additional fees deducted.

Express Pay (Daily) Which is a payment option where you will receive daily payouts for an additional 3% fee deducted from the total deposit amount.

Processing time: Up to 7 business days after withdrawal.

Payments are not processed on weekends or U.S. bank holidays.

## Welcome to the Museum Of Mistresses

### Museum Of Mistresses Payment Details Continued

Supported payment methods:

Museum Of Mistresses currently only offer Zelle, Paypal, Cash app, and Venmo as methods to receive your earnings. Please make sure to update Museum Of Mistresses on what earnings receiving method you plan to utilize.

Direct Deposit Options

Weekly (Free): Payments are withdrawn from your Museum Of Mistresses balance on Friday of each week. Funds arrive in your earnings receiving method within 7 business days after withdrawal.

Express Pay (3% fee): Payments are withdrawn daily, Monday–Friday (if your balance is \$25+). Funds arrive within 7 business days.

To calculate the total you earned from a chat, call, or video call, please follow the equation below:

Price per minute x call duration = price the customer paid

Call duration x platform fees = total platform fee for the call

Price customer paid - total platform fee = total earnings paid for the call

How to calculate my earnings

Follow the steps below to calculate how much you made from a reading. Please note that in the examples listed with each step, the rate per minute is \$2.50, and the example reading lasted 10 minutes.

1. Multiply your rate per minute by how long the reading lasted. For example, if you were to charge \$2.50 per minute and had a reading for 10 minutes.  $\$2.50 * 10 \text{ minutes} = \$25.00$ . This is how much the customer paid

2. First, we need to calculate how much is subtracted from the platform fees. The platform fees are \$0.35 in total.  $\$0.35 * 10 = \$3.50$  in fees

3. Next, we need to subtract the platform fees from how much the customer paid.  $\$25.00 - \$3.50 = \$21.50$
