

Delton District Library begins Curbside and Online Service Only

Out of an abundance of caution, beginning Tuesday, December 8th, Delton District Library will be closed to in-person visits but will continue to offer curbside pickup services, online programs and expanded online resources. Curbside service is available during normal business hours so there is no interruption for patrons who check out items, while online programs and other resources are available 24/7.

Curbside service is easy and safe:

1. Visit www.deltonlib.org. Under 'Services' select 'Card Catalog'. Search the catalog and contact the library via phone, Instant Messenger, or email.
2. **After receiving notification that items are ready for pick-up**, visit the library during normal business hours. Items will be available for pickup in breezeway. If you cannot walk to the front doors, let us know when you set up your pickup.
3. To make appointments to use library resources such as making copies, sending faxes, Notary services, Call, Instant Message or email the library to schedule an appointment. Upon arrival at the library for your scheduled appointment call the library for entry/assistance.
4. All returns should be placed in the receptacle located by the library entrance. Library staff will remove items daily and process your returns.

Patrons are also encouraged to access library services online. DDL offers cardholders access to several digital content providers.

Check deltonlib.org for future updates as Delton District Library plans to resume business as normal as soon as possible.
