

## Recommendation Letter

I am writing this letter to recommend Eng. Lina Abdel Rahim Al Khatib for your program. I know Lina since 2021, she was undergraduate student at Electrical and Communication Engineering Department, United Arab Emirates University. I taught her a course: Communication Circuits course, spring 2021. Also, I was her graduation project advisor.

During her study period she shows strong interest and high academic performance in both electronics and communications topics.

Lina is a trust-worthy, reliable student. She always respects others' opinions. Her cooperative nature and personality allow her to work well in a team setting. Lina shows diligence, passion and perseverance during her study at Electrical Engineering Department, UAEU.

I recommend Lina Al Khatib for admission to your program.

Sincerely,

Mohamed Atef, PhD., SMIEEE  
Associate Editor, IEEE TBioCAS  
Chair for IEEE-UAE CAS/SSCS Chapter  
Associate Prof., Electrical and Communication Engineering Department,  
United Arab Emirates University,
