삼육대학교
SAHMYOOK UNIVERSITY

IOA

Sahmyook University, as part of Ministry of Education’s University Innovation Support project, established SU-Innovation Academy in order to cultivate leaders of the 4th Industrial Revolution. The educational curriculum focuses on developing innovative professionals who integrate IT and AI to their respective fields of academia.

WHY STUDENT CHOOSE SEOUL FOR STUDY

Seoul is a great place to study abroad. Known worldwide for its intricate history, soaring mountains, innovative technology, and endless things to do, Seoul is THE place for studying abroad. Studying abroad in Seoul offers the convenience and comforts of city life on levels comparable to (and even above) NYC. Education and schools in Seoul are excellent and famed for their academic rigour. Expats looking for a school for their children will have plenty of options in both the public and international school domains. See Education and Schools in South Korea for more on the national education system.

Sahmyook University in South Korea the best in education

Sahmyook University in South Korea has a lot of high-achieving students and this is because of the very demanding educational system. The students spend most of their time in the schools studying (12-16 hours per day) and the teachers only focus on achieving good results so the curriculum is very test focused.
