

2x4 Mounting Options

- 2x4 cut to 28-9/16" length work real well
- Knotches in sled are space for Std. Buckets
- Eyebolts can be used to provide tie downs.
- 2 x 8 or larger can be used for seats, and or auger supports.
- hardware that works best are 5/16" x 2" LG Plated lag bolts, and 1-1/2" fender washer.
- Thanks for looking please submit your projects.
