*\*Early bird discount ends 08/09.  
Only Cancellations made before  
08/15 will receive a full refund*

## EVERYTHING YOU WANTED TO KNOW ABOUT ORAL SURGERY... BUT WERE AFRAID TO ASK

**24-Hour CE Certified Comprehensive Seminar  
Hands –On Practical Training with Lifelike  
Models and surgeries on live patients  
Hands on/Live Surgeries  
Sept 9-10-11, 2023**

### DAY ONE

This hands-on course will cover routine surgeries, from extractions to impactions, as well as root fragments palatal and mandibular tori removal, simple and complex orthodontic impacted canine exposure, socket grafting with and without membranes, infections, pain management and how to manage complications. Tips and techniques for faster and more efficient and less painful surgeries will be presented. This session will also cover anatomy, local anesthetic blocks and oral sedation.

### LEARNING OBJECTIVES:

To understand new skills, techniques and instruments for extraction. to review oral surgery anatomy and local anesthesia modules. To practice hard and soft tissue procedures on lifelike models to achieve excellence.

### SURGICAL EXAMPLES:

- Socket preservation bone grafting with and without membranes
- Atraumatic/flapless Microtome/luxator removal of teeth and root tips
- Surgical removal of impacted 3rd Molars
- Soft Tissue Partial Boney Horizontal Compete Boney
- Removal of Palatal and Mandibular Tori
- Orthodontic canine exposure with/without bracket

 5995 Brockton Ave, Riverside, CA 92506

## DAY TWO

Dealing with more advanced procedures for immediate maxillary and molar implants and immediate maxillary anterior implant placement, along with immediate abutment, temporary fabrication, and advanced soft tissue procedures for both pre-prosthetics and implants.

### LEARNING OBJECTIVES:

Understand and learn new skills and the use of new and various instruments for extractions and immediate implant placement with preservation of hard and soft tissue. To review oral surgery anatomy and local anesthetic techniques, and to practice hard and soft tissue procedures on lifelike models.

### OVERALL OBJECTIVES:

To simplify surgical procedures in your office and to emphasize faster surgical extractions without extensive bone removal and ridge preparation for immediate dentures. Simplified socket bone grafting, one-drug oral sedation, mini-implants, biopsy, and surgical complications will be covered.

- Atraumatic extraction of Mandibular 1st molar and Immediate wide diameter implant placement and bone graft
- Atraumatic extraction of Maxillary 1st molar and Immediate wide diameter implant placement with trans-alveolar osteotome sinus lift and bone graft
- A traumatic extraction of Maxillary Central Incisor with Immediate implant, immediate provisional abutment, immediate temporary, and socket bone graft (tooth in a day)
- Soft tissue uncovering (double "Z-plasty" papilla rebuilding) of implant with insertion of custom abutment/temporary
- Soft tissue uncovering of implant with palatal roll connective tissue graft

Veranium Inc. is a continuing education registered provider with the Dental Board of California. Permit #RP5608.

## DAY THREE

### On LIVE Patients:

- Implant Placement - Aesthetic Zone
- Implant Placement in the posterior Arch with immediate traumatic extraction without on the virgin Arch.
- Surgical removal of impacted wisdom teeth
- Torii Removal
- Exostosis removal surgeries

### Hands On:

- Bone Grafting
- Socket Grafting

**Many more benefits to be had by the attendees so that they can work efficiently in their clinical settings.**

**Dr. Ronald P. Morris,  
D.D.S. B.D.S. M.S.**

Dr. Ronald P. Morris earned his dental degree and graduated with honors from the *University of Detroit Mercy School of Dentistry*.

He completed his one-year internship/ general practice residency at *Truman Medical Center*. He then completed his Residency in Oral & Maxillofacial Surgery at *Henry Ford Hospital*.
