Footprints Trial

February was all about Chinese Luna New Year, celebrating the foods and customs. From learning all about the symbolism behind eating noodles and dumplings to the significance of the colour red and why the small red envelopes gifted to young people signifies prosperity.

Children in rural North Yorkshire embraced eastern culture by learning to count in mandarin, learning why the Chinese use chop stix, and sampling the local delicacies in class.

Linking into PHSE and SMSC frameworks, children and staff were engaged and informed.

Subscribe for our monthly newsletter to ensure you keep up to date on the trials progress.

RGS Research

Researching the inspirational Freya Stark in the hallowed halls of The Royal Geographical Society in London, who are fully supporting our footsteps expedition.

Stark is one of the female explorers in whose footsteps we will be following. Understanding the inspiration this individual had to explore and document and learn and finding out more about her from the archives held here has been both informative and emotional.

The RGS has supported explorers and expeditions since its founding in 1830 for the advancement of geographical science, under Royal Patronage since 1859.

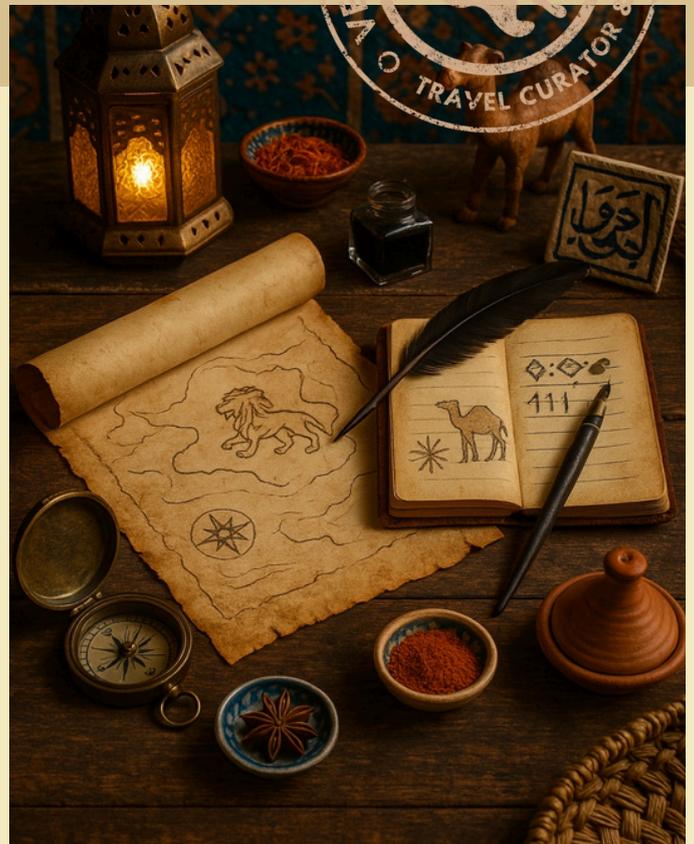

On the horizon...

The Fishing Horses of Flanders will be our focus for the third month of the schools trial which will conclude for Easter

We will be just back from Abruzzo, Italy, so subscribe to our newsletter to be the first to read up on our real life travels and adventures, along the Costa De Trabocchi
