To:

K-5 Morning Assembly at 8:30 am each Friday in the MPR

Special Thanks!

Thank you to those staff members who are supporting our students with Enrichment experiences:

Mr. Oliver – Robotics

Mr. Homesley – Chess Club

Ms. Harrell – Student Led Step Club

We really appreciate your dedication to our scholars as we all understand the importance of enrichment opportunities and the positive impact that it has on our scholars, physically, emotionally, socially and academically. Way to Go!!

If you would like to support these efforts, please reach out to the prospective leaders to see how you may be able to enhance programming. One thing I'm sure all clubs would greatly appreciate is snack and juice donations for after school practices. Any snack would be great as long as it is tree nut and peanut free!

Thank you for your consideration.

Report Card Conferences

Please reach out to your teacher for conference schedules and plans around whether your conference will be in person or virtual. Report Cards will be distributed during conferences this Thursday and Friday. If you are unable to schedule a conference, your scholar will receive their report card on Monday, November 13th.

Picture Day

November 16th is our Picture Day. 5th grade is also slated to participate in Biz Town field work. 5th grade students will be allowed to photograph first at 8:00 am so they will be on time to depart for the field experience. Please make sure your scholar is at school by 8:00am!

Reminders:

Please continue to use our carline for drop off and pick up

We are a peanut and tree nut free school. Please refrain from packing any food items that contain nuts. We have several scholars with allergies, and we want to keep everyone safe!

Have an amazing week!
