PAURI & CASATI

Sartoria made in Italy

THE STORY

The inspiration for the Pauri & Casati brand was born almost by chance while taking a stroll down the alleys of Rome during the early lights of dawn. It was then, before the city awoke and its incredible history, charm, and colors, became obscured by the noises of life, that we felt the emotions this beautiful panorama, absent of distractions, elicited. There

we realized that quality and true beauty will survive the tests of time. At that moment we both felt, almost simultaneously, a spontaneous calling to emulate, the feats of those who have built and adorned, with their art, in all its forms, this beautiful Italy, and to transmit the sensations that are felt in the face of these masterpieces to whomever would want to share in them. From there, with a touch of envy our desire to express ourselves came to be, choosing fashion as the medium, we wanted to create a brand entirely and exclusively Made in Italy. With the intent to create a piece of art of unrivaled quality and rare beauty that the entire world may admire and wear, and in doing so, making our clothes become a part of a story... YOURS.

THE LINEN LINE

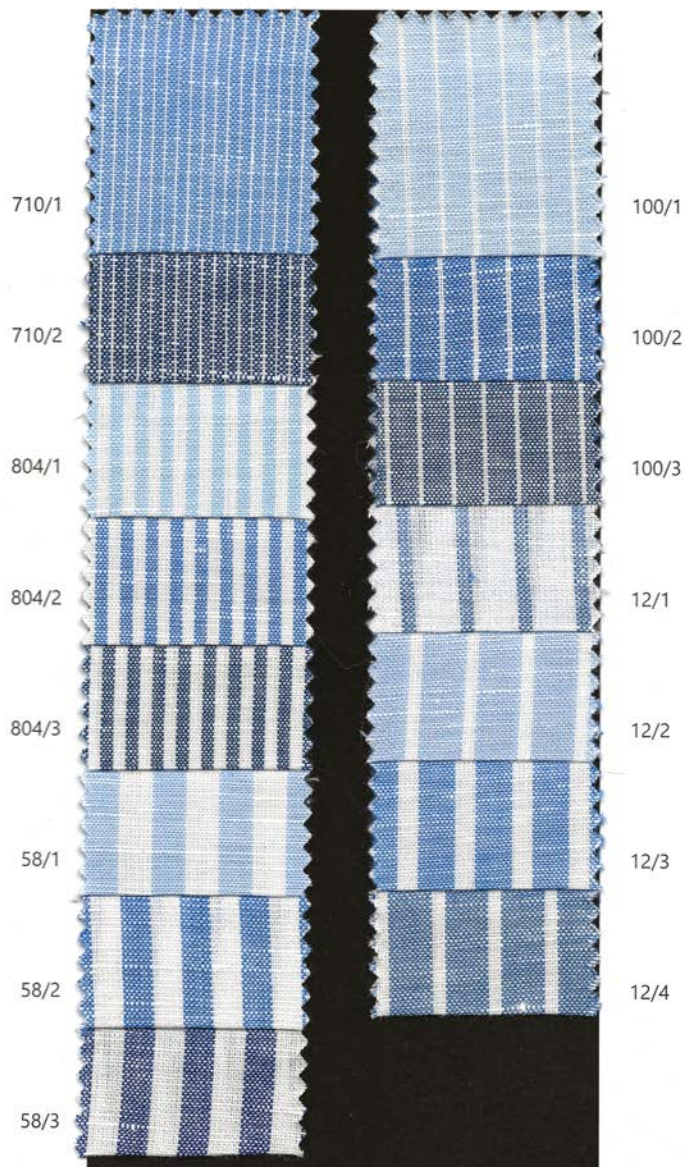

This product is manufactured in the province of Naples, Italy. Has a Modern Fit, and the sizing was selected carefully for the standards of the American Market.
