## FAQ

### HOW DO I CLEAN MY FACE WITHOUT STRIPPING NATURAL OILS?

To help your skin stay hydrated, it is helpful to avoid soaps or commercial cleansers on your face. These products may contain ingredients that upset the skin's natural balance, clog pores and damage the skin. Our Natural Dead Sea Scrub is ideal for your face, elbows, hands and feet. It gently cleans and exfoliates your skin without drying it.

#### **How to use Dead Sea Salt Scrub –For best results do this twice per week**

1. Remove safety strips from the jar
2. Place a hot, semi wet washcloth over your face and leave it for a few minutes. This will open your pores
3. Using the wooden spoon provided, take small amount of Dead Sea Salt Scrub and place it on your fingertips
4. Using your fingertips, rub the product all over your face: forehead circular motion, neck upward direction. Do this several minutes. **Avoid the eye area!**
5. Wash your face using warm water. **Do not use soap (soap will dry your skin)**
6. Wipe your face with hot wet washcloth
7. Place a washcloth over your face that has been dipped into ice water. You can also rub ice cubes on your face directly instead of cold washcloth. This will close the pores and stop contaminants from entering your open pores.
8. Apply Vitamin C Serum to your face and neck, let it dry naturally
9. Apply your Eye Cream, and Face and Body Cream
