Aged Copper®

The essentials for a roofing system.

It takes more than just shingles to create a high performance roof. Owens Corning® Roofing Essentials® Accessory Products work with our shingles to create a roofing system with excellent performance and protection.

- a** Ventilation Products. Help protect a roof from premature failure by helping remove heat and moisture from the attic. 
- b** PINK® FIBERGLAS® Blown-In Insulation. Tiny air pockets trapped in the insulation resist the passage of heat flow.
- c** Owens Corning® Hip & Ridge Shingles. Help protect the ridge vent and add an attractive, finished look to a roof's hips and ridges.
- d** Owens Corning® Shingles. Add durable beauty to a home. Shingles are the first line of defense against the elements.
- e** Owens Corning® Underlayment Products. Add an extra layer of protection between the shingles and the roof deck to help prevent damage from wind-driven rain.
- f** WeatherLock® Self-Sealing Ice & Water Barrier Products. Help guard vulnerable areas where water can do the most damage to a roof: eaves, valleys, dormers and skylights.
- g** Owens Corning® Starter Shingle Products. The first step in the proper installation of shingles.
- h** Undereave Ventilation Products. Help prevent moisture buildup in the attic by working with ridge vents to keep air moving.

Intense Harmony

Bright. Bold. Brilliant. The world is full of colour. From the cars we drive to the appliances we buy, we have the power to choose the colours we surround ourselves with. If you're looking to make your home truly vibrant, don't overlook the power of using colour on your roof to help coordinate exterior accents like paint, trim and even landscaping. TruDefinition® Duration® Designer Colours™ Collection Shingles can bring it all together—helping to improve your home's aesthetics and perceived value—with maximum vibrancy and colours you won't find anywhere else.

TruDefinition® Duration® Designer Colours Collection Shingles feature the high-performance durability of SureNail® Technology with triple layer protection and excellent adhesive power. Plus, they boast a Limited Lifetime Warranty*† and can stand up to 209 KM/H* / 130 MPH winds.

Whether you're looking to add more drama to your home or give it a knockout new look, you'll be amazed at the difference that TruDefinition® Duration® Designer Colours Collection Shingles can make—they offer brilliant impact and curb appeal like you never imagined. And when your home's elements work in harmony, the look will be vibrant, cohesive and undeniably spectacular.

Merlot†

The SureNail® Difference— A technological breakthrough in roofing.

The innovative features of Owens Corning® TruDefinition® Duration® Shingles with SureNail®

Technology offer the following:

Breakthrough Design. Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.

Triple Layer Protection™. A unique "triple layer" of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.

Excellent Adhesion. Our enhanced Tru-Bond*** sealant grips tightly to the engineered fabric nailing strip on the shingle below.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Exceptional Wind Resistance. The industry's first asphalt roofing shingle engineered to deliver 209 KM/H* / 130 MPH wind warranty performance with only 4 nails. Fewer nails required can mean fewer deck penetrations.

Owens Corning® Hip & Ridge Shingles

Owens Corning® Hip & Ridge shingles are uniquely colour matched to the TruDefinition® Duration® Designer Colours Collection Shingles. The multiple colour blends are only available from Owens Corning® Roofing and offer a finished look for the roof.

* The warranty can be transferred one (1) time. See actual warranty for complete details, limitations and requirements.

** Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning.

† Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colours and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual colour. To accurately judge your shingle and colour choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Colour availability subject to change without notice. Ask your professional roofing contractor for samples of colours available in your area.

†† This illustration depicts triple layer protection and the amount of triple layer protection may vary on a shingle-to-shingle basis.

‡ 40-Year Limited Warranty on commercial projects.

‡‡ Applicable in Canada only.
