

EMOTIONAL FINANCE

*Better Youth
Financial literacy
through
Emotional
Intelligence!*

JULY HIGHLIGHTS: SECOND TPM AND LTTA

In **July**, we kicked off an important milestone for the project: the **second Transnational Project Meeting (TPM)** and the **Learning, Teaching, and Training Activity (LTTA)**. Trainers from all three partner countries—**Italy, The Netherlands, Malta**—came together to test our **toolkit** and **training pills** in a dynamic and collaborative environment. It was an inspiring and highly productive three days where we gained valuable insights that will shape the **next steps** of the project.

FINANCIALLY LITERATE YOUTH CONTRIBUTE TO A MORE ROBUST ECONOMY BY
MAKING INFORMED DECISIONS, AVOIDING EXCESSIVE DEBT, AND INVESTING WISELY.

TRAINING PILLS: MISSION ACCOMPLISHED!

We're proud to announce that all our **training pills** have been successfully **published!** 🎉 Each video has received enthusiastic responses, and we've already seen great success with the series.

We encourage everyone, especially young people, to **check them out** and **share their feedback**. Your input is vital to help us make the content even more **impactful!**

WHAT'S NEXT? THE PILOT TESTING PHASE

Our **next big step** is to **pilot test** the **Emotional Finance toolkit** and training materials with our primary target group.

This phase will help us collect hands-on feedback and refine our resources to ensure they meet the **needs of young people** seeking to enhance their **financial literacy**.

If this is of interest to you, read more about the project at www.emotionalfinance.org and follow our social media channels.

If you would like to get involved in piloting our innovative emotional finance curriculum, please email us at info.saffex@gmail.com. We would be happy to discuss further how we can work together.
