

EMOTIONAL FINANCE

*Better Youth
Financial literacy
through
Emotional
Intelligence!*

HIGHLIGHTS FROM OUR PILOT TESTING:

The pilot testing phase was carried out in three countries—**Italy, Malta, and The Netherlands**—with a total of **91 participants**. The sessions were conducted in both **online** and **in-person** formats, ensuring that youth from different backgrounds could participate and benefit from the Toolkit.

Participants rated the Toolkit highly, with **80%** of participants expressing **satisfaction**. The **interactive nature** and **relevance** of the content were particularly praised.

80% OF PARTICIPANTS FELT MORE CONFIDENT IN MAKING INFORMED FINANCIAL DECISIONS THANKS TO THE SKILLS GAINED FROM THE TOOLKIT.

FINAL EVENT IN MALTA: A GREAT SUCCESS

The **International Multiplier Event** in **Malta** was an important step in the dissemination of the Toolkit's results and provided a platform for final feedback. It allowed partners, participants, and stakeholders to assess the Toolkit's effectiveness and plan for its broader distribution.

The event was attended by **87 participants**, with 63 attending in person and 24 participating online.

WE'RE NOT STOPPING HERE

The **international webinars** and the **video testimonials** recorded after the piloting are the last steps in the project, but our work does not end here. We continue to share the EF experience and methodology, and we keep on disseminating the amazing Toolkit we have created to encourage **financial literacy** and **youth entrepreneurship**- in Europe and beyond.

If this is of interest to you, read more about the project at www.emotionalfinance.org and follow our social media channels.

If you would like to get involved in further emotional finance curricula, please email us at info.saffex@gmail.com

We would be happy to discuss further how we can work together.
