African Leaders Launch Free-Trade Zone

A landmark free-trade agreement removing trade barriers including tariffs on 90% of commodities and other commercial barriers in the African continent was launched on Sunday after Benin and Nigeria joined the accord. The duty-free movement of goods is expected to boost intra-regional trade, while also helping countries move away from mainly exporting raw materials and build manufacturing capacity to attract foreign investment.

UK Investors Bet on BOE Rate Cut

The U.K. market is catching up with global bond gains as traders bet the Bank of England will be forced to follow peers in signalling rate cuts. The Money markets are now pricing in a 25-basis-point cut by next August, following warnings about trade conflicts from BOE Governor Mark Carney and disappointing U.K. economic data.

Markets Reprised Fed Rate Cut Bets

The Federal Reserve's debate on rate cut shifted from how much to cut interest rates later this month to whether to move at all after hiring in June trumped the expectations of economists. U.S yields however, rose on strong jobs report.
