

Empower Me

Something's changed within this life
Like a light's been turned on late at night
Since my thoughts have changed
Yah a veil's been lifted from these eyes
Like a self-imposed suicide of old beliefs
So I changed my thoughts & I changed my ways
& I changed the ways I approach the day
& I'm taking control.

Night will come & I will pray & I'll think of things
I'd love to change & I just let go

Empower Me Now I see It's always up to me, up to me
.Empower Me Now I see It's always up to me - I believe
I believe

And if I fall along the way
I know there's things that I could change
to make things right
& if I feel like I could fly
Well I'd spread these wings of faith & try
& I'd just take flight

Empower Me Now I see It's up to me, it's up to me.
Empower Me Now I see It's always up to me - ya me

Cause every strong belief creates our lives and
Voices are the choices from inside- ya inside

Empower Me Now I see It's always up to me, ya me.
Empower Me Now I see It's always up to me
I believe-I believe-I believe
