

Get in Tune

I wanna be the stone that is thrown
Into the lake of your soul let the ripple effect
help you connect
To your higher self no need for someone else
You've got the answers within yourself
Yah your higher self is always there to help
to guide you to your ultimate success

Get in Tune now
to what you Think, You Say, and Do
don't be fooled now for everything will start
with you
Gotta get in tune, gotta get in tune

I wanna be the rake that is placed
into your garden of weeds rearrange the place
and plant some new seeds

For the past is not the here and now
you're worth much more than you allow
yah the past is not the here and now
you've got a shot to make yourself proud

Get in Tune now
to what you Think, You Say, and Do
don't be fooled now for everything will start with you
gotta get in tune, gotta get in tune

Well I've got the solution - to end your confusion
add to your amusement - its ALL an illusion

When all else begins to fail
your soul trapped yah within a jail
tear up your victim card
get back to who you truly are.

yah
You've Got to Get in Tune
