

Shot of Love

To much pain and doubt transmitted to your house
Switch off and get a Shot of Love

Sit back take a breath
We've all become a little numb
Wake up from the cloud
the media is pushing the dust
6 o'clock news in on pointing out all the wrong
car chase robberies politics of hate and greed
I'm just saying we don't need to be so informed

Peace & love imagine what we'd see if we just focused on
peace & love imagine what we'd see

CHORUS

A shot of love (love) is all we need
A shot of love (love) will drop you to your knees
A shot of love (love) will help us believe
we're alright, alright, alright

Storm watch breaking news
Powered by the words of fear
30 day court case feeding off the pain and tears
Sun's up blue sky focus on the bliss of life
Good news got company so rise up from the misery
change 3x that channel from tragedy to victory
oh with a shot of love

Peace & love imagine if the news just spoke & focused on
peace & love Imagine what we'd see
love & Peace

Chorus

A shot of love love love keep searching for love love love
Channel surfing for love love love I'm sending you some love
(a shot of love is what we need to bring some peace & harmony got to
reach out baby got to reach out and find some love)
love love love - I'm sending you some love love love
I'm sending you some love
Oh everybody needs a little shot of Love
