

Cranky Pants

What's up with your cranky pants 4x
You better change CP if you want to hang with me
What's up with your cranky pants

You've got a big black cloud hanging over your head
Well if it's lack of sleep you best go back to bed
Shift your attitude cause you're acting rude
Your funky bad mood needs to change real soon
Cause all you ever do is bitch and moan to me
With your best new friend ya misery It's time to shut her up,
Lock her up, and throw away the key

What's up with your cranky pants 4x
You better change CP if you want to hang with me
What's up with your cranky pants

Up and down moods swinging around
I'm known to bring sounds that shake and rumble the ground
You know what I found playing this game called life
You have to separate the real from the fake
Drive through the strife
You've heard it all before so please don't kill my vibe
I have to admit you walk in the party dies...
I'm a simple and wise guy with passion in my eyes
I'm here to lift spirits till we all reached the sky
I can't recognize why you look so mad
So what we all have haters-be grateful be glad

Call the doctor shake it up man Because your funk is killing me
You're no fun to be around when you're down Infection spreads like a disease make it
hard to breathe

What's up with your cranky pants

Homie stop tripping clucking like a chicken
Whiney sad about everything that's missing
Step up your position - vibes your killing
Hate is for bidden you should learn from the children
mmhmm There's a spark that's missing
Let me light it up- let me turn your ignition
Yoow start it up start it up Vision when you're 80
Feel like a schmuck-- Reflecting--Ready to self-destruct
Wasted all your life complain about what
Now alone with a fiber in your cup
Pushed everyone away scared every day
Midnight black hair that you turned all gray-- decay
And your fears an your hate- no way!
Paint a life like Monet

CP you better change them jeans 3x
If you want to hang with me you can't be so cranky
What's up with your Cranky PANTS!
