

## MUST, RECOMMENDED, & NICE TO HAVES FOR THIS MYSTERY SERIES

PRODUCT	WHY	SHOP
<b>Studio 180 Design Star 60</b> 	<p>A MUST! The Mystery is written to specifically use this Tool. Other 60° Tools will not work. There are added features in the Star 60 that allows additional techniques from the other 60° tools on the Market.</p>	<a href="#">Star 60 Tool</a>
<b>Invis-grip</b> 	<p>A MUST! Perfect for your Tucker Tools. Invisi-Grip is a clear, non-slip material that is applied to the underside of the tools. When pressure is applied while rotary cutting, Invisi-Grip prevents your ruler from slipping and sliding. Simply cut to size, peel and apply to ruler.</p>	<a href="#">Invis-grip</a>
<b>Quilter's Magic Wand</b> 	<p>A MUST! There will be times when a technique will require the Quilter's Magic Wand to ensure your best piecing.</p>	<a href="#">Quilter's Magic Wand - Assorted Colors</a>
<b>Seam Stick</b> 	<p>A MUST! 99.9% of the seams in this Mystery will need to be pressed open and need to be flat, therefore it is best to use a Wooden Seam Stick. The wood will wick steam and provide a hard flat press.</p>	<a href="#">16", 24", 32" Wooden Seam Sticks</a>
<b>Fabric Marking Pencil</b> 	<p>HIGHLY RECOMMEND! There will be times when a technique will require the good Fabric Marking Pencil to ensure your best piecing. I only use Sewline as it is ceramitized chalk that is pounded out of your fabric as you sew, therefore nothing is left behind in your quilt. Look at your fabric and you will want a color that isn't in your fabric. I often use Pink and Green or Yellow. White is great for dark fabrics.</p>	<a href="#">Sewline Pencils and Refills</a>
<b>Fine Quilting Pins</b> 	<p>HIGHLY RECOMMEND! Pinning is going to be particularly important. It is best to have sharp thin pins. If you can't remember the last time you purchased pins, you probably needed them. These are some of my favorites pins to use. All are heat resistant.</p>	<a href="#">Quilting Pins</a>
<b>Flower Head Quilting Pins</b> 	<p>HIGHLY RECOMMEND! This Mystery will require you to be highly organized and tips will be provided that suggest you mark Flower Head pins in order to stay on track. These are my favorite Flower Head pins to use. I can write on them using a thin Sharpie.</p>	<a href="#">Bohn Flower Head Pins</a>
<b>Wonder Clips</b> 	<p>HIGHLY RECOMMEND! Once again, you will need to be highly organized, I highly recommend that you have Wonder Clips so that you can utilize my tips for keeping organized. I know they are an investment, but worth it. Better to be using the right tools than having to remake and use more fabric.</p>	<a href="#">Wonder Clips</a>

## MUST, RECOMMENDED, & NICE TO HAVES FOR THIS MYSTERY SERIES

PRODUCT	WHY	SHOP
<b>Stiletto and Pressing Tool</b> 	HIGHLY RECOMMEND! Having a Stiletto will help you keep pieces on track through your stitching needle. My favorite, by Annie.	<a href="#">Stiletto and Pressing Tool</a>
<b>Bladesaver Thread Cutter</b> 	HIGHLY RECOMMEND! We will be doing a lot of chain piecing so why now use that used 45mm rotary blades. Give them new life in the BladeSaver Thread Cutter! Make cutting your chain pieced units fast and easy. LOVE it! Comes in several different colors.	<a href="#">Bladesaver Thread Cutter</a>
<b>Mister</b> 	HIGHLY RECOMMEND! You will want to either use a nice even mist of Best Press or Water as you constructed this Mystery. This Misters provide a perfectly even mist no matter how many times you pump it.	<a href="#">Mister</a>
<b>Best Press</b> 	HIGHLY RECOMMEND! Best Press spray starch, there's no flaking, clogging, or white residue on dark fabrics. I treat all my fabric with it prior to cutting and then every 2-3 pressing cycles. You just need a fine mist, so I use it in the Misters.	<a href="#">Best Press 32oz Refills</a>
<b>Sew on the Go Ruler Handle</b> 	HIGHLY RECOMMEND! This is the perfect tool for your Star 60 Tool. It works great on Studio 180 Rulers that have Invisi-grip on the back. Make maneuvering and matching lines easy. Ideally for any Ruler, but perfect for Star 60, Wedge Star and Rapid Fire Lemoyne Star	<a href="#">Ruler Handled</a>
<b>See Your Stuff Large Bag</b> 	HIGHLY RECOMMEND! I keep my fabric, especially for Mysteries, organized and clean in this fabulous 16" x 16" bag with a Handle! I LOVE these bags. I have several colors in stock but they go fast.	<a href="#">See Your Stuff Bags</a>
<b>Magnetic Pin Cups</b> 	NICE TO HAVE! My new favorite pin holder. The design makes it easy to get pins, put pins back in (just drop in), store and travel. Each Magnetic Pin Cup comes with a removable case for safe storage while traveling to class (or to keep curious pets out!). Love this! They come in great colors!	<a href="#">Magnetic Pin Cup</a>
<b>Glow Tape</b> 	NICE TO HAVE! If you have trouble finding lines on the Rulers, this would be very helpful. Glow Line makes it easy to find measurements and shapes. Especially when rotary cutting repetitive pieces. You can use Glow-Line either underneath or on top of Invisi-Grip.	<a href="#">Glow Line Tape</a>
