

If we cannot fill the Rangeley Inn with the buzz of our machines, let us gather with our sewing machines and screens to maintain our Retreat.

If comfortable, you and your tablemates can elect to get together, on your own, at one of your houses or rent a small gathering area. Or, join in from your studio and we will create virtual tables between lessons.

We have three fun-filled days of real-time lessons and activities planned. See the schedule on the second page. You can elect to join us for only the gathering times or stay online in one of our break-out tables. If you need help, at any point just log back in or return to demo table, Lynn and Michelle will be there to help.
