GENERAL INFO

DRIVING

Defensive driving is necessary in Turkey. Traffic offenses and accidents can be considered criminal offenses, so if you are found at fault in a serious accident, waste no time in contacting the American military police for assistance. While the U.S. Security Forces has no legal authority on the streets of Turkey, they can provide a translator and help to keep the situation from escalating further (remember the insult law).

AMERICAN FLAGS

It is wise to remember that, although there are many Americans and U.S. facilities here, we are still guests in another country. You will see the U.S. flag flown only at NATO facilities with other NATO country flags. It is illegal to display your country's flag other than in the privacy of your dwelling.

SENSITIVITIES IN TURKEY

ATATURK

Ataturk, or Mustafa Kemal Ataturk, was the founder of the modern Turkish Republic. He is revered and idolized and neither his name nor his image should ever be treated with disrespect. The Turkish flag is a source of pride to Turks. Destroying or insulting the Turkish flag is punishable by imprisonment.

INSULT LAW

The Insult Law can involve more than insults to the Turkish flag or Ataturk. If you insult a Turk, the legal complications stemming from your actions could be significant. In the event you become involved in an argument, you should avoid name-calling or accusations of dishonesty. Discourteous, insulting acts or remarks regarding the currency, national heroes, emblems, or leaders are punishable by jail terms.

BLACK MARKETING

Black marketing (smuggling) is a serious offense, and it covers a broad spectrum of activities including selling, renting, loaning, or giving away duty-free items to any person not authorized these privileges. Giving away (or worse, reselling) items from the exchange of commissary will put you in trouble with both the U.S. military and Turkish law.

PET POLICY

The Hodja Inn has a limited supply of pet friendly rooms available. When these rooms are fully occupied, the Hodja Inn complies with the Air Force Lodging Policy of prohibiting pets in regular lodging facilities. Under no circumstances are pets allowed in regular lodging rooms. Please arrange pet care with one of the pet sitters on the base. The pet sitter is provided as a convenience and compiled by Veterinary Services office. They can be reached at 676-3119 or 676-3258.

Occupants who violate the "No Pets Policy" will be assessed a \$150.00 cleaning charge and once cited; guests who violate this policy are subject to eviction as determined by the Lodging Manager. The assessed fee is based on expenses incurred to return the room to available inventory. Some of these costs include shampooing carpets, draperies, and pesticide "bombing", of the room as well as to ensure future guests with pet allergies is not exposed.

For safety and health reasons, lodging management will enter rooms displaying a "Do not disturb" sign for two consecutive days of its posting. Please help avoid an unpleasant experience for you and our future guests. We have the most current pet sitter list at the front desk lobby for your convenience.

Should your pet need assistance, the Veterinary Medicine Office can be reached at 676-3119/3258. For veterinarian emergencies please call 676-6666/6554.

10 Tips to Keep You Safe!

Brought to you by the sexual assault response coordinator.

1. Act confidently while in public. Hold your head up & walk with a purpose. Perpetrators often look for individuals they think are least likely to resist physically.
2. Lock doors & close blinds for privacy.
3. Learn and practice assertive communication. If you say "no," say it clearly.
4. Be wary of individuals that insist you have another drink or seem overly persistent that you stay somewhere longer than you feel comfortable staying.
5. Travel in small groups when feasible to decrease the potential for harm. Stay in well-lit, well-traveled areas & report any harassing or stalking behavior to the Law Enforcement desk at DSN 676-3200.
6. Be mindful of cultural differences and the potential for misinterpretation of some American customs. Examples may include your style of dress, extended eye-contact, and topics of conversation.
7. Discuss your boundaries with local masseuses prior to getting a massage. Standards of practice vary by country & location, so it is recommended you specify which parts of your body are offlimits.
8. Avoid riding in the front seat of cabs or other forms of public transportation. It puts you in arms reach of the driver should they have dishonorable intentions.
9. Plan to meet friends & coworkers in the lobby of the hotel rather than having them come to your room.
10. Use caution when allowing friends or coworkers to share a room with you especially after a night of drinking. The most prudent thing you can do is arrange a cab ride home. It's a sad fact that in the Air Force 90% of sexual assaults are perpetrated by someone the victims know.

If you've been the victim of a sexual assault, help is available 24/7 at 676-7272.

STONEBRIDGE (ROMAN BRIDGE)

It's over the River Seyhan. It was constructed by the Roman Emperor Hadrianus in the IV century (385). It was an important bridge between Europa and Asia for centuries. Harun Resit (766-809) joined it to Adana Castle with some additions. At the beginning of the IX century, Memun, who was Harun Resit's son and the seventh Abbasian caliph had it repaired. It was repaired by Ahmet illin 1713, Kel Hasan Paha in 1847, Ziya Pasha, the Governor of Adana Province (1789) had repairs completed at different times. The epigraphs of these three repairing are present today. The last repairs were constructed in 1949. It is 319 meters long and 30 meters high. The 14 out of the 21 bridges are still standing. Two lion relieves can be seen on the big bridge in the middle. It's known to be the oldest bridge in the world which is still in use. This bridge is located next to the Hilton in Adana.

THE GRAND (BIG) CLOCK - TOWER

It has been on the street of Ali Munif since 1882. Construction was started by Governor Ziya Pasha in 1881. The tower was built with shaped stones.

SABANCI MERKEZ CAMII (SABANCI CENTRAL MOSQUE)

The Sabanci Central Mosque in Adana is the largest mosque in Turkey. The exterior of the mosque is similar to the Sultan Ahmed Mosques (Blue Mosque) in Istanbul while the interior decoration is similar to the Selimiye Mosque in Edirne. The mosque was built jointly by the Turkish Religious Foundation and the Sabanci Foundation.

Sabanci Central Mosque, which went into service in 1998, is built on a total of 52,600 square meter of land and has a closed area of 6,600 square meters. Located on the Seyhan River, the Central Mosque is a majestic structure with 6 minarets. The tile work of the Mosque has been done by using Iznik tile work technique. Four big panels facing Kiblah are the world's biggest mosque panels in size.

SABANCI MERKEZ PARKI (SABANCI CENTRAL PARK)

A large portion of the area of the west bank of today's Merkez Park was a citrus garden. South of the garden, there was a neighborhood of shanty homes. At the very south, just north of D-400 State Road, there was the Central Bus Terminal on the river side, and the Archaeology Museum (which is still there) and a gas station on the street side. North of the garden up to the old dam, was a reserve land for floods which used to happen frequently until the 1950s. On the east bank, there was a neighborhood of shanty homes and a large area of vacant land.

WELCOME TO HISTORICAL TURKEY

"Merhaba" (Hello) and welcome to the Hodja Inn, Incirlik AB, Turkey. Our base is in the South of Turkey.

Incirlik is in an agricultural area with an early spring and a hot, humid summer, much like Miami. Late summer and early fall are hot and dusty like Phoenix and the winters are cool and rainy like New Orleans. With land area more than 286,000 square miles, Turkey is located in the part of Asia called Anatolia and is considered to be the crossroads between Europe and Asia. Its area would stretch from Washington DC to Kansas City. Throughout her 10,000 - year history, each era and empire left its mark on the country. Historical sites abound throughout Turkey, many of them within a short drive of the base. For example, approximately 40 kilometers west of Adana, on the edge of Cukurova Plain, lies the city Tarsus, the birthplace of St. Paul. It is also the town where Anthony wooed Cleopatra by presenting her with the town and surrounding area. Tarsus also features the Roman gate known as Cleopatra's Gate and Ulu Cami (Grand Mosque) of 1579. Owing to its position commanding the Cilician Gates through the Tarsus Mountains to the Mediterranean, it has been a historically important town for more than 3,000 years.

WHO IS HODJA?

Nasreddin Hodja is an important figure in Middle Eastern culture. His much-quoted words and deeds are parables of everyday life. It is not known whether Hodja was a real person or not. Some believe him to have lived in the 14 and 15 century during the reign of the Ottoman Sultans. Others believe him to be a mythical character, much like Santa Claus or Aladdin. Stories abound about Hodja, the scholar, the judge, the theologian, and the prankster.

He is often depicted riding his donkey backwards, and the various explanations for why he does this are a reflection on the complexity of the Hodja legend. Some say he rides backwards to maintain proper posture among his students, others say it is because he knows where he's going but want to see where he has been. Still others maintain it is because he wants people to see a face when he comes and goes. And that is why our facility is named after Mr. Hodja. We would like our friendly faces waiting to serve you to be first and last impressions of Incirlik Air Base.
