Employment Application- Welder/Fabricator

Thank you for your interest in joining MartinX Builds.

Please read this document carefully as it contains important information regarding the role, expectations and application process. This information will be considered during the selection process. **Only shortlisted candidates will be contacted for interviews.**

As the workshop prepares to open in South Africa, we are building a small, focused team dedicated to high quality restoration work. We are not a high-volume workshop. Every build is approached with precision, care and attention to detail.

If you take pride in your work and understand the level required, we invite you to apply.

Position: Welder / Fabricator

Role Overview: We are looking for a skilled welder/fabricator with experience in automotive bodywork and restoration. Applicants with hands on experience will be preferred, however strong practical ability, attention to detail and a willingness to learn will also be considered.

Key Responsibilities:

- Welding and fabrication on classic car shells
- Rust removal and repair
- Panel alignment and structural work
- Assisting with full shell restorations

Requirements:

- Proven experience in automotive welding
- Strong attention to detail
- Ability to work independently and as part of a team
- Pride in clean, high-quality workmanship

To apply, please send your **CV and any relevant documents (if applicable)** to **info@links2europe.com**

Please include the position you are applying for in the subject line (e.g., *Welder Application* or *General Staff Application*).

Application Process

All applications will be reviewed carefully and only shortlisted candidates will be contacted and invited for an interview. If selected, you will be contacted directly with further details regarding the interview process.

Due to the number of applications expected, we may not be able to respond to every applicant.

Good Luck
