

Wee Welcome Newsletter

July 2020

To existing clients:

If you recommend someone to us and they enroll for 4 or more weeks you will get one week free for one child. What a deal!

With the new Sussex Village Park playground we are fortunate to have it so close. There will be many trips there as the children really enjoy the new equipment and seeing some of their friends from school. Hopefully the new Splash Pad will open before the hot days end so we can have fun in the water there too!

With summer here your child may bring in a water bottle and swim attire along with a beach towel to enjoy the hot summer days!

Fireworks Safety

If you live somewhere that allows individuals to use fireworks, proceed with caution and use common sense. The National Safety Council offers a number of safety precautions, but here's some common sense advice.

- Follow the directions on all fireworks and don't use them for anything other than what they're intended for.
- Don't attempt to alter or combine fireworks products.
- Never use homemade fireworks.
- Report illegal explosives to the nearest fire or police department.
- When lighting fireworks, always have water handy. A hose is best, but a bucket will suffice.
- Spectators should remain a safe distance from the fireworks being lit.
- Whoever lights the fireworks must be sober, wear safety glasses, and keep clothing well away from the flame when lighting.

- Only light fireworks outdoors on a smooth, flat surface, away from all flammable materials including dry leaves and paper.
- Never try to relight fireworks that appear to be duds. Wait up to 20 minutes for a possible delayed ignition. Then if nothing happens, soak the firework in a bucket of water and dispose of it.
- Dispose of all firework materials by soaking them in water before putting them in the trash.
- Keep sparklers away from clothing and other flammable materials.

Pet Precautions

- Don't take your pets to fireworks displays.
- Don't leave your pets in a car by themselves.
- Don't leave your pets unattended outside.
- During public fireworks displays, keep your pets in a safe place indoors where they won't be able to destroy anything.
- If your home isn't soundproof, leave the television or radio on so your pets won't hear the fireworks.
- Consult your veterinarian ahead of the holiday if your pets have a tendency to overreact to loud noises.
