

Wee Welcome Newsletter

August 2020

To existing clients:

If you recommend someone to us and they enroll for 4 or more weeks you will get one week free for one child. What a deal!

With January comes the snow and bitter cold. Please send your child with a warm coat, hats, weather proof mittens, boots, and snow pants as we do try to get the children out daily weather permitting. In case of heavy snow please call ahead. If at all possible we do try to stay open however we may open later when the first teacher can make it in.

Winter Weather Tips for your child

In general

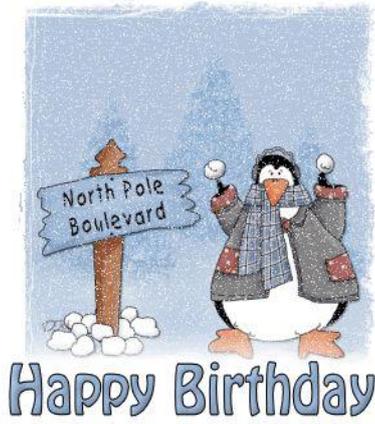

- Children shouldn't play outside alone. Establish a buddy system with one or more friends and have them look out for one another. Children younger than 8 years of age should always be supervised outside.
- Consider keeping them indoors whenever the temperature or the wind chill is reported to be -27°C (-16°F) or lower. At these temperatures, exposed skin will begin to freeze.
- Never send children outside unsupervised in extreme weather conditions such as snowstorms.
- Check often to see that your child is warm and dry. Younger children should take regular breaks and come inside for a warm drink.
- Help children choose play areas with a warm shelter nearby (e.g., near home or a friend's home).
- Apply sunscreen to exposed skin, even when it's cloudy.

Clothing

if your child's feet and hands are warm, what they are wearing is usually good. If your child is dressed too warm, she could sweat and feel colder when she stops playing.

- Dress your child in layers of clothing that can be put on and taken off easily.
- Infants being pulled in a sled need extra bundling. Because they aren't moving, they can't generate body heat the way a playing child can.
- Wear a hat because a lot of body heat is lost through the head.
- Keep ears covered at all times to [prevent frostbite](#).
- Wear mittens instead of gloves so that fingers can be bunched together for warmth.
- Wear warm, waterproof boots that are roomy enough for an extra pair of socks and to wiggle toes.
- In younger children, remove drawstrings from clothing that could catch on climbing or play equipment. Use Velcro or other snaps instead. Use a neck warmer instead of a scarf, and mitten clips instead of a string to prevent choking.
- Remove wet clothing and boots immediately after playing.
