Spring Cleaning Tips

1. Focus on the big stuff. Like the pantry, and the closet, and the mini blinds. Stuff that gets neglected most of the year because it has a door, or is up high and relatively out of sight. .
2. Do the windows. Clean those bad boys, let the sun in, and without actually doing much else, everything suddenly looks cleaner.
3. Take care of your floors. Winter weather is all coated up on those things. Get it off now so you don't feel icky when you're enjoying barefoot time this summer. Plus, musty smells like to settle into your carpets and your hardwoods, clean them and the entire place will smell fresher.
4. Use the right products. Honestly, you can make your own. A little vinegar and water is all it really takes. If you enjoy a little lemony freshness so add some lemon to that mixture and you'll be good to go.
5. Don't forget outside. The outdoors needs some cleaning up too. The walkways need sweeping and the gutters could probably use a good cleaning out. Take a walk around the perimeter of your house. Look for loose boards and broken bits. Check the yard and see what was washed away and destroyed during Winter

It is highly likely that pesky Leprechaun will be paying us a visit!
