

Welcome

My name is Ms. Mia. I have been in the childcare field since 2017 and teach all ages during the summer and winter break.

I enjoy working with kids, making crafts, baking, and spending time outside.

I work as a 'floater' which means you might see me in any room ranging from infants to school age.

Depending on the room I like to engage in various craft activities with the children as well as sensory activities like playing with slime and building things.

I am minoring in English so I love including reading as much as possible in all classrooms and with all ages.

I look forward to spending time with all the children!
